

LIFE CHANGING ADVENTURE

**COMPLETED GRADES
10 AND 11**

SERVICE AND LEADERSHIP TRAINING

You want to develop your leadership skills and experience what it might be like to work at Lutherdale.

The problem is that the traditional camper program may not provide a full story of what being a leader at camp would be like.

At Lutherdale we believe that leadership skills are best taught in an experiential learning environment.

We have developed a Service and Leadership Training program that allows Senior High campers to experience leading younger campers while working directly with the Lutherdale staff.

Under the supervision of our well-trained and caring staff, SALT participants will guide other campers through Bible studies, games, Worships and other traditional camp activities. The program is designed to allow SALT participants to learn new skills and create a safe space to hone those skills through experiential learning.

Now more than ever, future employers and educators are seeking young adults with immersive experiences and leadership experience. Register today!

SALT INFORMATION

This 2-week commitment is a great opportunity for campers to learn some behind-the-scenes training of what it means to serve on a summer camp staff. Each week the campers will live with a cabin group, and shadow a seasoned Cabin Leader, while serving as a role model for younger campers. SALT campers will build leadership skills, work with children, grow in self-confidence, and strengthen their faith while living in an intentional Christian community.

SALT campers will depart from camp as strong, faithful leaders, equipped to serve within their school, church, and community.

2021 SUMMER CAMP

WEEK 1 | SALT Training Week *Required*
